PRE-FLIGHT	Satisfactory	Not Reviewed	APPROACH & LANDINGS	Satisfactory	Not reviewed
Knowledge of rules & procedures			Configuration – e.g. correct use of flaps		
Safety Equipment			Normal		
Weight & Balance			Cross wind		
Performance considerations			No brake		
Weather considerations			Paddock landing (simulated/real)		
Preflight inspection			<b>EMERGENCIES (Simulated or oral)</b>		
Aircraft documents			Launch abnormalities		
Launch procedures			Instrument/radio failure		
Passenger briefing & considerations			Landing emergencies (specify)		
Pre takeoff checks CBSIFTCBE			Other (specify)		
<b>LAUNCH/TAKEOFF(S)</b>			<b>GENERAL</b>		
Launch method - circle:	Winch	Auto	Aerotow: DUAL/SINGLE	Compliance with standard operating procedures	
Normal (if DUAL circle: short or Long rope)				Radio Technique/airspace Knowledge	
Cross wind				Judgement/decision making	
With simulated launch failure				Overall Airmanship	
Abandoned take off				Overall handling proficiency	
<b>IN FLIGHT MANOEUVRES</b>			How is glider left? (Brakes/flaps/trim)		
Out of position towing				What's new in Gliding since last review?	
Descent on tow			<b>LOGBOOK ENTRY</b>		
Release from Launch				Log book entry & certification	
Steep turns (AoB 45°)				Date of next review:	
Max rate descent				Comment(s) <i>continue on reverse if necessary:</i>  _____ _____ _____ _____ _____ _____ _____ _____ _____ _____	
Stalling; basic, approach, wing drop, in turns					
<b>SPINS; Entry, Recognition &amp; recovery</b>			<i>*see note</i>		
Soaring ability / Lookout					
(circle) Thermal / Ridge / Wave					
<b>CIRCUITS</b>					
Circuit Joining					
Pre landing checks					
High Circuit					
Low Circuit
